

**HYDROLOGY OF HUMID
TROPICAL REGIONS**

- *Aspects of tropical cyclones*
- *Hydrological effects of agriculture
and forestry practice*

Edited by Reiner Keller

Proceedings of a symposium held
during the XVIIIth General
Assembly of the International Union
of Geodesy and Geophysics at
Hamburg, Federal Republic of
Germany, 15-27 August 1983.

This symposium was organized by
the IAHS International Commission
on Surface Water and cosponsored
by UNESCO

IAHS Publication No. 140

Published by the International Association of
Hydrological Sciences 1983.

The selection and presentation of material and
the opinions expressed in this publication are
the responsibility of the authors concerned
and do not necessarily reflect the views of
the publishers

*The Editor would like to acknowledge the great
assistance he received from the many people who
helped in the preparation and publication of
this volume. Lekan Oyebande (University of
Lagos, Nigeria), Co-Convenor of the symposium,
generously assisted with the organization of
the symposium. The panel of the rapporteurs of
IHP Project A.1.10, on which L.S.Lau and
J.H.Chang (University of Hawaii), and the
Editor represented IAHS/ICSW, contributed
valuable initiatives to the planning of the
programme. J.C.Rodda, Secretary General of
IAHS, provided effective assistance. Penny
Kisby (Assistant Editor, IAHS) gave invaluable
help at all stages of production. Wendy Payton
typed the majority of papers in this volume
with her usual speed, accuracy, and good sense.
I would like to express my gratitude to
J.A.Rodier for both correcting and proof-reading
the French papers and abstracts. I am also
grateful to my assistants Sigrid Willemann and
Wolfgang Fleischer at the Institute for Physical
Geography, Chair of Geography and Hydrology at
the University of Freiburg, for their help in
the editing of the papers. Many figures
provided by the authors were revised or redrawn
by H.-J.Paul, cartographer at the Chair of
Geography and Hydrology, Freiburg. He also
designed the cover illustration.*

The camera-ready copy for this publication was
produced at the IAHS Editorial Office,
Institute of Hydrology, Wallingford,
Oxfordshire OX10 8BB, UK.

Contents

Preface } Préface }	<i>Reiner Keller</i>	v vii
REVIEW PAPER		
Operational hydrology in the humid tropical regions <i>World Meteorological Organization</i>		3
1 HYDROLOGICAL ASPECTS OF TROPICAL CYCLONES		
Crues d'origine dans l'Océan Indien (Madagascar) et le Pacifique Sud (Nouvelle Calédonie et Tahiti) <i>J.Danloux</i>		29
Tropical storms in Central America and the Caribbean: characteristic rainfall and forecasting of flash floods <i>Andres Díaz Arenas</i>		39
Runoff and flood characteristics in some humid tropical regions <i>Takeo Kinoshita</i>		53
Rainstorm characteristics affecting water availability for agriculture <i>J.S.Oguntoyinbo & F.O.Akintola</i>		63
2 THE HYDROLOGICAL REGIONS OF THE HUMID TROPICS		
Hydrological characteristics of the Caribbean <i>Andres Díaz Arenas</i>		75
Water resources development and management efforts in Asia and in the Pacific <i>Reynaldo M.Lesaca</i>		85
Recent trends in aspects of hydroclimatic characteristics in West Africa <i>Oyediran Ojo</i>		97
Aspects scientifiques et techniques de l'hydrologie des zones humides de l'Afrique centrale <i>J.A.Rodier</i>		105
Rivers of southeast Asia: their regime, utilization and regulation <i>A.Volker</i>		127
3 LAND USE AND HYDROLOGY IN THE HUMID TROPICS		
Interpretation of the sedimentological behaviour of the Tocantins-Araguaia basin <i>E.A.L.Béquio, W.C.Lou, M.A.Siciliano & O.V.Silveira</i>		141
Nutrient balance of a central Amazonian rainforest: comparison of natural and man-managed systems <i>W.F.L.Brinkmann</i>		153

Evaluation of runoff sources in a forested basin in a wet monsoonal environment: a combined hydrological and hydrochemical approach	<i>L.A.Bruijnzeel (Swami Prem Sampurno)</i>	165
Soil moisture regimes as affected by silvicultural treatments in humid East Texas	<i>Mingteh Chang, Jennie C.Ting, Kim L.Wong & Ellis V.Hunt Jr</i>	175
On the lack of dependence of losses from flood runoff on soil and cover characteristics	<i>Ian Cordery & David H.Pilgrim</i>	187
Evolution des écoulements, des transports solides à l'exutoire et de l'érosion sur les versants d'un petit bassin après défrichement mécanisé de la forêt tropical humide	<i>Jean-Marie Fritsch</i>	197
Water yield resulting from clearcutting a small hardwood basin in central Taiwan	<i>Y.J.Hsia & C.C.Koh</i>	215
Soil erosion in the humid tropics with particular reference to agricultural land development and soil management	<i>R.Lal</i>	221
Groundwater hydrology in agriculture of the humid tropics	<i>John F.Mink</i>	241
Effects of deforestation on flood characteristics with particular reference to Hainan Island, China	<i>Qian Wangcheng</i>	249
Moisture adequacy in relation to forestry and agricultural land use in the Mahanadi river basin	<i>A.A.L.N.Sarma</i>	259
Selection of soil and water conservation practices for a giant bamboo plantation in Taiwan	<i>Sheng Lewis Liang</i>	265
Deforestation impact assessment: the problems involved	<i>M.F.Wilson & A.Henderson-Sellers</i>	273
 4 WATER BALANCE AND REGIME		
Runoff generation in tropical rainforests of northeast Queensland, Australia, and the implications for land use management	<i>M.Bonell, D.A.Gilmour & D.S.Cassells</i>	287
Evapotranspiration in humid tropical regions	<i>H.A.R.de Bruin</i>	299
Runoff of a tropical high mountain region	<i>Ch.Leibundgut</i>	313
Some aspects of water balance in the tropical monsoon climates of India	<i>V.P.Subrahmanyam</i>	325
 5 INADEQUATE DATA AND HYDROLOGICAL MODELS		
The meteorological reasibility of windmills for water supply in northern Malawi	<i>David R.Archer</i>	335
Estimation of areal precipitation	<i>A.K.Bagchi</i>	345

Hydrological studies of the Irrawaddy Delta <i>J.S.A.Brichieri-Colombi</i>	353
Recent hydrological and climatological activities in the Amazon basin, Brazil <i>Václav Eliás &</i> <i>Antonio Jorge Serrano Cavalcante</i>	365
The effects of meteorological inputs on the variability of runoff with time <i>S.Jovanović, M.Jovanović & Z.Radić</i>	375
A dynamic model for determination of soil moisture budget and its applications <i>H.-B.Kleeberg &</i> <i>G.Kopplitz-Weissgerber</i>	387
Optimal flood control policy based on imperfect forecasts <i>Arun Kumar & Rema Devi</i>	397
Hydrological computation for water resources development within Imo River basin, Nigeria <i>Samuel Chukwudi Ojukwu</i>	409
River flow forecasting through a regression model: a case study of the Basement Complex of western Nigeria <i>E.S.Oyegoke, E.'D.Ige & L.Oyebande</i>	419
Synthetic streamflow sequences for some West African rivers <i>E.S.Oyegoke, O.T.Talabi, O.K.Morohunfola & L.Oyebande</i>	427
Simulating flood hydrographs from storm rainfalls in Venezuela <i>Ricardo R.Ponte Ramirez & Elizabeth M.Shaw</i>	435
Hydrological computations for water resources development with inadequate data <i>J.A.Rodier</i>	447
The slanting hole raingauge proposed for hillslope hydrology <i>Yung-Cheh Chiang & Sheng Lewis Liang</i>	459
