

It is our pleasure to take this opportunity to thank to all the participants for their contribution to the workshop. We express our gratitude to Dr Gordon Young, Secretary General of the International Association of Hydrological Sciences (1995–June 2000), and Dr Liz Morris, President of the IAHS International Commission on Snow and Ice, for their support of this workshop. We would like to thank our colleagues who reviewed the manuscripts for this publication. It is through their efforts, spending much time examining each manuscript that the quality of this publication is achieved. Ms Penny Kisby and her staff at IAHS Press are responsible for the final editing of the proceedings and the crisp product that was produced. The publication cost was partly supported by the International Arctic Research Center and the Glaciological Expedition in Nepal. The travel support for the participants from developing countries was provided by Nagoya University and a donation from the members of the Glaciological Expedition in Nepal, for which we acknowledge the following personnel: Y. Ageta, T. Chetri, K. Fujita, H. Iida, S. Iwata, T. Kadota, O. Kobayashi, S. Kohshima, N. Naito, M. Nakawo, C. Narama, K. Rijan, A. Sakai, N. Takeuchi, Y. Takeuchi and T. Yamada.

Organizing and Editing Committee:
