Proceedings of an international symposium (Symposium S5) held during the Sixth Scientific Assembly of the International Association of Hydrological Sciences (IAHS) at Maastricht, The Netherlands, from 18 to 27 July 2001. This symposium was convened by the IAHS International Commission on Atmosphere–Soil–Vegetation Relations (ICASVR)

As a courtesy the authors should be informed of any use made of their work. No use of this publication may be made for resale or other commercial purposes without the prior written permission of IAHS Press.

**IAHS is indebted to the employers of the Editors for the
invaluable support and services that enabled them to work
effectively and efficiently.**

The papers included in this volume have been peer reviewed and some were extensively revised before publication.

The designations employed and the presentation of material throughout the publication do not imply the expression of any opinion whatsoever on the part of IAHS concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries.

The use of trade, firm, or corporate names in the publication is for the information and convenience of the reader. Such use does not constitute an official endorsement or approval by IAHS of any product or service to the exclusion of others that may be suitable.

The papers were checked, reformatted and the pages assembled by Frances Watkins (IAHS Press, Wallingford, UK).
