Proceedings of an international symposium (Symposium HS03) held during IUGG 2003, the XXIII General Assembly of the International Union of Geodesy and Geophysics, at Sapporo, Japan, from 30 June to 11 July 2003. The symposium was organized by the International Commission on Surface Water (ICSW) of the International Association of Hydrological Sciences (IAHS).

This publication may be reproduced as hard copy, in whole or in part, for educational or nonprofit uses, without special permission from the copyright holder, provided acknowledgement of the source is made. As a courtesy the authors should be informed of any use made of their work. No use of this publication may be made for electronic publishing, resale or other commercial purposes without the prior written permission of IAHS Press.

The papers included in this volume have been peer reviewed and some were extensively revised before publication.

IAHS is indebted to the employers of the Editors for the invaluable support and services provided that enabled them to carry out their task effectively and efficiently.

The designations employed and the presentation of material throughout the publication do not imply the expression of any opinion whatsoever on the part of IAHS concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries.

The use of trade, firm, or corporate names in the publication is for the information and convenience of the reader. Such use does not constitute an official endorsement or approval by IAHS of any product or service to the exclusion of others that may be suitable.

The conveners of the symposium would like to express their thanks for financial support obtained from a "Leadership for International Scientific Cooperation" Project (PI: Prof. Kaoru Takara, Disaster Prevention Research Institute, Kyoto University) under the Special Coordination Funds for Promoting Science and Technology provided by the Ministry of Education, Culture, Sports, Science and Technology (MEXT) of Japan.

The editors would like to express special thanks to Cate Gardner for coordination and organization of all the publishing processes, to Penny Farnell for her efforts in preparing the final version of this book, and to Toshiharu Kojima for providing the cover illustration.

The papers were checked, formatted and assembled by Penny Farnell at IAHS Press, Wallingford, UK.
