

The USGS Mendenhall Postdoc is a prestigious opportunity to work with one of the premier Earth Science research facilities. The research opportunity is entitled :

**Integrating hydrologic and geophysical data for groundwater characterization: method development and application to airborne electromagnetic surveys**

The research advisors are

Burke J. Minsley, (303) 236-5718, [bminsley@usgs.gov](mailto:bminsley@usgs.gov);

Ty Ferré, [tyferre@gmail.com](mailto:tyferre@gmail.com);

Mary C. Hill, [mchill@usgs.gov](mailto:mchill@usgs.gov);

Jared D. Abraham, [jdabraha@usgs.gov](mailto:jdabraha@usgs.gov)

The duty station is Lakewood, Colorado and the duration is two years.

Proposals are due February 21, 2012.

Please contact me or Burke Minsley with any questions.

Mary C. Hill, MSE, PhD
